Celebrating 25 Years of Lessening the Pain of Workers' Comp

Company Nurse is excited to celebrate 25 years of lessening the pain of workers' compensation. And we don't plan on stopping. We understand your organization's needs have been evolving - and so has our organization. After gathering and reviewing feedback, we have created **complimentary** solutions for Company Nurse clients within our digital platform, Lintelio, to help your organization address its needs.

Solutions such as the **WC Incidents** module, which offers quick, seamless, and secure access to your organization's injury reports and **Lin**, the Lintelio AI virtual assistant for employees to rapidly report a workplace injury.

Want to learn more? Click a button below to schedule a demo or email info@lintelio.com.

Note: Please remember to authorize info@companynurse.com to continue receiving the latest updates in nurse triage and workplace health and safety.

Lin: Workplace Injury Reporting

Lin is Lintelio's digital virtual assistant, helping to further lessen the pain of workplace injuries. With Lin, employees can self-report workplace injuries, assist employees with FAQs, and schedule call backs from the Contact Center. And now, Lintelio has made it even easier to manage workplace injuries with our Admin Portal.
